P R E F A C E.

IN compiling the present edition of the COUNTY DIRECTORY OF SCOTLAND, the Publishers have endeavoured to carry out more perfectly the feature introduced in the former edition, rendering the work as far as possible a complete *Telegraph* as well as *Postal Directory* for the country. The nation has in each case been carefully revised, and the necessary corrections, while more than two thousand additional places have been given.

much of the work of the Post Office is now performed in the Travelling Post as established on the Railways, and many of the smaller Post Offices, that formerly received all their correspondence through a large town, obtain certain bags from such Travelling Offices direct, it is important that letters for those places be properly addressed, to prevent mis-sending and consequent delay. In the present edition, special care has been taken to alter the addresses of the numerous places to which this applies, so as to ensure the correspondence reaching in due course.

A complete List of the Postal Telegraph Offices established in Scotland is embodied alphabetically in the First Part, including those Railway Stations at which public telegraph business is conducted, the hours when such Offices are open for the transmission of business on week days and Sundays being in each case stated.

The Professional and other statistics, revised and corrected, are reproduced, forming, heretofore, a comprehensive Clerical, Legal, Medical, and Banking Directory; but, formerly, they are omitted in the cases of Edinburgh, Glasgow, Aberdeen, and Dundee, for which cities local directories are published.

The Publishers have again to express their grateful acknowledgments to the Gentlemen and Gentlemen who have favoured them with information; to the Post Office Authorities, for whose valuable recognition and support they are so much indebted; and, not least, to the Postmasters of Scotland, without whose cordial cooperation and assistance the production of such a work would scarcely have been practicable.

107 PRINCES STREET, EDINBURGH,
August 1875.

EXPLANATIONS.

THE present Edition of this work has, like that immediately preceding, been compiled for the combined purposes of a *Postal and Telegraph Directory*; and attention is specially directed to the following particulars:—

I. THE POSTAL DIRECTORY.

Throughout the *First Part* of the Directory the postal address appears, as formerly, between the colons, after the name of the residence, and this is followed by the name of the owner or occupant. In the *Second Part* this order is *reversed*, the name of the owner or occupant appearing first, followed by the residence and postal address.

(The places in the postal address now printed in *italics* are in every instance *Telegraph Offices*, but their being thus indicated does not interfere with their use for postal purposes. For a further explanation regarding them, see Par. II. 'Telegraph Directory.')

Note.—As a general rule, the last word in the address of every letter, etc., should be the name of the Post Office from which the letter is to be delivered; and the Directory has been prepared with this view, giving in each case the postal address a letter should bear to ensure direct transmission to its destination. The name of the County is added in the instances in which it is requisite or desirable that this should form part of the address either from the Delivery Office not being well known, or from its similarity to another place,—as, for example, to distinguish places of such names as 'Inverurie' in Aberdeenshire, and 'Inveraray' in Argyllshire; or places with names so much alike as sometimes to be mistaken when not distinctly written,—as Largs in Ayrshire, and Largo in Fife.

Letters for Scotland, posted in England or Ireland, should have the name of the Country, or the letters 'N.B.,' added to the other part of the address.

The names of the Post Towns and Sub-Post Offices in Scotland (distinguishing Money Order, Savings Bank, and Insurance and Annuity Offices) are inserted in the *First Division* of the Directory in the order in which they occur in the alphabetical arrangement. In the case of the smaller offices, where Money Order business is not transacted, the name of the nearest Money Order Office is added, for the information of persons who may wish to remit money to the neighbourhood.

For further Postal information, see Appendix at the end of the Directory.

II. THE TELEGRAPH DIRECTORY.

In this the object is to furnish the name of the Postal Telegraph Office nearest to each residence or place, together with the distance therefrom. Where the Post Town and the Telegraph Office are *identical*, the name is printed in *italics*; but when this is not the case the name of the nearest Telegraph Office is given in addition (also in *italics*), prefixed by the letters *T.O.* The figures, in either case, denote the distance in miles between the Telegraph Office and the place named; and when a cipher (0) appears, it means that the distance is under one mile.

The names of the Postal Telegraph Offices throughout Scotland at which Telegraph business is conducted by officers of the Post Office—as well as Railway Stations at which Telegrams are collected and delivered by the Railway Companies on behalf of the Postmaster-General—are printed as they occur in the alphabetical arrangement, in *ITALIC CAPITALS*; and the hours, on week days and Sundays, when Telegraph business is transacted are in each case appended.

At the Stations where Messages can only be received for *transmission*, but from which there is *no delivery*, the circumstance is noted by the words '*Collecting Office only.*'

The Telegraph Offices in Orkney and Shetland are also included in the alphabetical order, although they do not form part of the British Postal Telegraph System, but belong to the Orkney and Shetland Islands Telegraph Company.

Particulars as to Telegraph Rates and Regulations are annexed.

FAMILIES resident in the Country may unite in one Subscription, by special arrangement, according to the number of Subscribers or Volumes required. These Joint-Subscriptions must, however, be taken out in the name of one person, who will be considered responsible for the whole.

SUBSCRIPTIONS PAYABLE IN ADVANCE. CATALOGUES GRATIS.

In Town, Books are delivered and sent for. Full Lists of Books required should be left with the Librarian; or, if preferred, the Catalogue may be marked and left at the Library, and Books will be sent from it regularly as the others are called in.

Books Sent to any Part of the Country.

LIBRARY BOXES for transmission of Books to the Country are supplied free of charge; but all expense of carriage, and postage of Catalogues, is defrayed by the Subscriber; lists, which should consist of twice the number of Volumes required, ought to be sent by Post two days before each exchange, when the New Supply is despatched immediately on arrival of Return Books. Mention should always be made of the number to be exchanged.

LIST of SURPLUS COPIES of BOOKS withdrawn from circulation, and offered at reduced prices, forwarded regularly to Subscribers.

POST OFFICE TELEGRAPHS.

The following are the principal Regulations issued for the information of the Public:—

T A R I F F.

The charge for the transmission of messages by telegraph throughout the United Kingdom is one shilling for the first twenty words, and threepence for each additional five words or part of five words. The names and addresses of the sender and receiver are not charged for.

Thus, for a message not exceeding 20 words the charge is 1s.

Over 20 and not exceeding 25	”	”	1s. 3d.
” 25 ” ” 30	”	”	1s. 6d.
” 30 ” ” 35	”	”	1s. 9d.; and so on.

Telegrams may be repeated at the request of the sender, if he desire to adopt this extra security against risk of error, by being sent back from the office at which they are received to the office from which they are forwarded. The charge for repetition is one-half the ordinary tariff, fractions of threepence being reckoned as twopence.

The cost of a reply to a telegram may be prepaid, and a form of authority will in that case be delivered to the addressee, who will be at liberty to send his reply from any postal telegraph station at any time within two months after the date of the original message. If the form of authority be not used, application (accompanied by the form) for the return of the money should be made by its holder to the Surveyor-General, General Post Office, Edinburgh.

When the cost of a reply to a telegram has been prepaid, and the number of words in the reply is in excess of the prepayment, the sender of the reply must pay for any excess of words over the number so prepaid.

Copies of a telegram directed to more than one firm or person in the same free delivery, will be delivered separately at an additional charge of threepence per copy.

Telegrams may be re-directed from town to town (provided they have not been opened at the original address) at an extra charge of *one-half* the ordinary tariff, fractions of threepence being reckoned as twopence.

Telegrams written in any European language are charged for according to the number of words they contain; but all unintelligible words not forming part of any European language are charged for as if each syllable were one word. Should the word not be composed of syllables, then five letters are considered as equal to one word.

The charge for telegrams to the Orkney and Shetland Islands is 6s. for the first 20 words, and 1s. 6d. for every additional five words; except to Moss Bank, Culla Voe, Uya Sound, and Balta Sound, in Shetland, the rates to which are 7s. for the first 20 words, and 1s. 9d. for every additional five words.

Telegrams for Places Abroad.—Messages addressed to Foreign Countries or the Colonies are received at all postal telegraph stations. The charges for such messages may be learned on application at any postal telegraph office.

P O R T E R A G E.

The sums charged for the transmission of telegrams cover the costs of delivery by special foot messenger within the limit of *one mile* of the terminal telegraph office, or within the limit of the town postal delivery of that office, when it is a head office and the town postal delivery extends for more than a mile from it.

TRINITY COLLEGE, GLENALMOND,

PERTSHIRE.

WARDEN—THE REV. W. PERCY ROBINSON, D.D.

THE PUBLIC SCHOOL DEPARTMENT is intended to furnish an education of the highest order as a preparation for the Universities, the Military Colleges, the Civil Service, or for general or professional life. Boys are admitted at any age between nine and nineteen.

The whole school is divided into three different sets of classes. The first set is arranged by proficiency in Classics, with which are united English History and Geography; the second by proficiency in Mathematics and Arithmetic; and the third by proficiency in German and French; the teaching of the latter language being extended to the youngest boys.

After having acquired an elementary knowledge of Greek, boys may (if it be desired) exchange the further study of that language for additional instruction in Mathematics, Natural Philosophy, and Modern Languages. All those who do so will be required to join the Chemistry class.

Military Drill is taught by means of a School Rifle Corps regularly attached to the 1st Perthshire Administrative Battalion Rifle Volunteers.

Every boy, without any exception, learns Vocal Music; and lessons are given on the pianoforte and organ, if desired, at an extra charge.

To parents who desire a singularly bracing and healthy air for their boys, Trinity College offers peculiar advantages.

Full information, together with rules of discipline, descriptive account, and view of the College, sent on application to the Warden.

‘Few modern foundations, if any, can compare with Trinity College, Glenalmond, as a training place, moral and intellectual, for growing boys. To say nothing of its noble buildings and ample appliances of every kind, its position in the heart of beautiful scenery, and removed from the manifold evil influences of a town, secures for the pupils, at a time when their characters are being formed and moulded for life, the maximum of healthy freedom, combined with a minimum of temptation to vice or frivolity.’—*Scottish Guardian*.

NOTE.

The information in this Slip applies solely to the First Part, the necessary alterations having been made in Part Second.

CHIEF POSTAL ALTERATIONS.

Telegraph Business is now transacted at—

DUNROBIN STATION (Highland Railway). Hours—7 A.M. to 7 P.M. ; Sunday, 9 to 10 A.M. and 5 to 6 P.M.

The Telegraph hours at the under-mentioned Offices have been altered as follows :—

- Page 11. *ANSTRUTHER*. On week days, 8 A.M. to 8 P.M.
,, 27. *AYTON*. On week days, 7.30 A.M. to 8 P.M. (no exception in summer).

,, 400. *STROME FERRY STATION*. On Sundays, 9 to 10 A.M.
,, 439. *WISHAW*. On Sundays, 9 to 10 A.M.

,, 27. *AVONBRIDGE STATION* is now a Collecting Office only.
,, 64. Bonar Bridge Station is no longer a Telegraph Office.

Sub Post Offices have been opened at—

Auchnashellach, *Dingwall* ; Bunchrew Station, *Inverness* ; Castlebay, *Lochmaddy* ; Mutehill, *Kirkcudbright* ; and Stennes, *Kirkwall*.

THE COUNTY DIRECTORY OF SCOTLAND.

* Indicates Post-Offices at which Money-Order and Savings-Bank business is transacted.

‡ Denotes those which are also Insurance and Annuity Offices.

The Postal Address appears between the Colons, after the name of the Residence or Place. Where the Post-Town and the Telegraph Office are identical, the name is printed in *ITALICS*; but when not, the nearest Telegraph Office is added (also in *Italics*), prefixed by the Letters *T. O.* The Figures, in either case, denote the distance in miles between the Telegraph Office and the place named. When a Cipher (0) appears, it means that the distance is under one mile.

The names of Postal Telegraph Offices (including Railway Stations where business is transacted on behalf of the Postmaster-General) are printed as they occur in the Alphabetical arrangement, in *ITALIC CAPITALS*.

THE PRESENT RATES FOR DEPOSITS ARE—

For Periods under Six Months (subject to Short Notice, and Interest to rise or fall with Market Rates),	3 per cent.
At Six Months' Notice,	3½ "
For Fixed Period of One Year,	4 "
For Fixed Periods of Two or Three Years,	4½ "
For Fixed Periods of Four Years and upwards,	4¾ "

Money is also received on Debenture Bonds for Three Years and upwards at 4¼ per cent. interest.

The Paid-up Capital and the Money received on Deposit and Debenture Bonds are lent out on Heritable Securities, thus affording to Investors all the safety of Heritable Bonds, in addition to the guarantee of the Company's Subscribed Capital.

Loans are granted on the security of Heritable Property for fixed periods, or repayable by instalments extending over such number of Years as may be arranged.

No Commission, Fines, or Assessment in name of additional interest charged from Borrowers.

The following Table shows the Amount of the Instalments required to pay off a Loan of £100. These instalments are *not* payable in advance, and include both Principal and Interest —

No. OF YEARS.	Quarterly.	Half-Yearly.	Yearly.
2 YEARS, .	£13 5 9	£26 14 10	£54 3 3
3 " .	9 1 11	18 6 2	37 1 4
4 " .	7 0 1	14 1 11	28 10 7
5 " .	5 15 1	11 11 6	23 8 4
6 " .	4 18 5	9 17 11	20 0 4
7 " .	4 6 7	8 14 1	17 11 11
8 " .	3 17 8	7 16 2	15 15 9
9 " .	3 10 10	7 2 4	14 7 8
10 " .	3 5 4	6 11 4	13 5 4

The amount of the Quarterly, Half-Yearly, and Yearly Instalments for longer periods of Years, which are calculated at the same rate as the above, may be learned by applying to the Manager, from whom Forms of Application for Loans and all other information may be obtained.

Mails for the Orkney Islands.

6. The mails are despatched daily (excepting Sunday) from Thurso in Caithness at 8 A.M., returning from Stromness at 6 A.M. The distance is 30 miles.

Mails for the Shetland Islands.

7. The mails for the Shetland Islands are despatched from Aberdeen every Friday evening, arriving at Lerwick on Sunday morning; returning from Lerwick to Aberdeen every Monday at 6 and 10 P.M. alternately. The steamer calls also at Kirkwall on the outward trip on Saturday, and on the homeward trip on Tuesday. An additional steamer plies between Aberdeen and Lerwick during the summer months, leaving Aberdeen on Tuesday evening, and returning from Lerwick on Thursday evening.

Mails for Skye and the Hebrides.

8. The Skye mails are now transmitted daily (Sundays excepted) by railway to the terminus of the line at Strone Ferry, whence a mail cart conveys them, six days a week, to Broadford, Portree, and Dunvegan.

The mails for the Long Island are conveyed between Dunvegan in Skye and Lochmaddy in North Uist by sailing packet three times a week throughout the year.

Mails to and from the island of Lewis are conveyed between Ullapool and Stornoway five days a week from 1st April to 30th September, and three days a week during the remainder of the year. The excepted days in summer are Tuesday and Sunday. In winter, the packet leaves Stornoway on Tuesday, Thursday, and Saturday mornings, in time for a despatch to Edinburgh, Glasgow, etc. in the evening, and returns to Stornoway on the same days.

III.—RATES OF POSTAGE, AND CONDITIONS OF TRANSMISSION.

Inland Letters.

9. The rates of postage to be prepaid are as follows, viz. :

For a letter not exceeding 1 oz.	1d.
„ exceeding 1 oz. but not exceeding 2 oz.	1½d.
„ „ 2 oz.	4 oz. 2d.
„ „ 4 oz.	6 oz. 2½d.
„ „ 6 oz.	8 oz. 3d.
„ „ 8 oz.	10 oz. 3½d.
„ „ 10 oz.	12 oz. 4d.

A letter *exceeding* the weight of 12 oz. is liable to a postage of 1d. for every ounce, beginning with the first ounce. A letter, for example, weighing between 14 and 15 ounces, must be prepaid fifteen-pence.

A letter posted unpaid is chargeable on delivery with double postage; and a letter posted insufficiently prepaid is chargeable with double the deficiency. On re-directed letters the charge for re-direction (an additional postage at the prepaid rate) is the same whether prepaid or collected on delivery.

No letter may exceed the dimensions of 18 inches in length, 9 inches in width, or 6 inches in depth.

Colonial and Foreign Letters.

10. For the rates on these letters, reference is recommended to be made to the *British Postal Guide*, published quarterly by command of the Postmaster-General, price 6d.

Newspapers.

11. All newspapers registered at the General Post Office, London, printed and published in the United Kingdom at intervals not exceeding seven days, and on a sheet or sheets unstitched, may be sent by post, singly or in a packet, within the United Kingdom, for a postage of one half-penny for each newspaper on each transmission, prepaid either by an adhesive stamp or by the use of a stamped wrapper. A packet containing two or more registered newspapers is not chargeable with a higher rate of postage than that chargeable on a book packet of the same weight. A newspaper posted unpaid, and a packet of newspapers posted either unpaid or insufficiently paid, will be charged with the unpaid rate applicable to book packets. The title and date of every publication must be printed at the top of every page, and it must be folded in such a manner that the title may be readily inspected. It must either have no cover, or be in a cover open at the ends, and contain no enclosure, except any supplement belonging to it. If it contain any other, the packet will be charged as a letter, unless the enclosure be such as may be sent at the book rate of postage, and the entire packet be sufficiently prepaid as a book packet. A newspaper which

has any letter, or any communication of the nature of a letter, written in it or upon its cover, will be charged as an unpaid or insufficiently paid letter. No packet of newspapers must exceed 14 lbs. in weight, 2 feet in length, and 1 foot in width or depth.

Registration for inland circulation includes registration for transmission abroad. Newspapers for foreign countries and the colonies are subject to the same general regulations as for inland circulation; excepting that for foreign transmission a newspaper may be published at intervals of 31 days, and that it (but not its supplement) may be printed on sheets stitched together. It must be posted within eight days from the date of publication, including the day of publication. No packet of newspapers must exceed 2 feet in length, or 1 foot in depth or width.

For the rates on newspapers going abroad, reference should be made to the *British Postal Guide*.

Inland Book Post.

12. The rate of postage is one halfpenny for every 2 oz. or fraction thereof, and must be prepaid in stamps.

If not sufficiently paid, double the deficiency will be charged; and if sent unpaid, a double rate is charged. All letters or sealed enclosures in a book packet are forbidden. If this rule be infringed, the entire packet will be treated as a letter. If any letter be written on a book or its cover, it will be charged unpaid letter postage. Entries, however, merely stating who sends the book, etc., or to whom it is given, are not regarded as a letter.

Every packet must be entirely open at both ends, and put up in such a manner as to admit of the contents being easily withdrawn for examination, otherwise it will be treated as a letter.

Circulars are admissible at the book rate, if in identical terms, and the whole or greater part be printed, engraved, or lithographed.

A book packet in dimensions must not exceed 6 inches in depth, 9 inches in width, 18 inches in length, nor 5 lbs. in weight.

For information respecting rates of postage and regulations applying to book packets for places abroad, see the *British Postal Guide*.

Colonial and Foreign Pattern Post.

13. The pattern and sample post is restricted to *bona fide trade patterns or samples of merchandise*. Goods sent for sale, or in execution of an order (however small the quantity may be), or any articles sent by one private individual to another, which may not actually be patterns or samples, are not admissible.

Patterns or samples, when practicable, must be sent in covers open at the ends, and so as to be easy of examination.

Post Cards.

14. Post cards which bear a halfpenny impressed stamp are available for transmission between places in the United Kingdom only.

Nothing is allowed to be written or printed on the front (or stamped) side *but the address*. On the reverse side any communication, whether of the nature of a letter or otherwise, may be written or printed. Nothing whatever may be attached; nor may the card be folded, cut, or otherwise altered. If any of these rules be infringed, the card will be charged 1d. on delivery.

The charge for post cards is 7d. and 8d. per dozen. No single cards sold.

Postage Stamps, Wrappers, and Envelopes.

15. Postage labels are issued of the respective values of $\frac{1}{2}$ d., 1d., $1\frac{1}{2}$ d., 2d., $2\frac{1}{2}$ d., 3d., 4d., 6d., 9d., 10d., 1s., 2s., and 5s.

Stamped envelopes are made of four sizes, and are sold at 2s. 2d. and 2s. 3d. per packet of 24.

Newspaper wrappers bearing an impressed halfpenny stamp are sold in packets of 12 for $6\frac{1}{2}$ d.

It is no longer legal to use for postage any embossed or impressed stamp cut out or otherwise separated from any cover, paper, or card on which it was embossed. Postage stamps are permitted to be purchased from the public at the various Money Order offices throughout the country, but no *single* stamps can be purchased; they must in all cases be presented in strips of at least two stamps adhering to each other.

IV.—REGISTRATION.

16. By the prepayment of a fee of fourpence, any letter, newspaper, or book packet may be registered to any place in the United Kingdom or the British Colonies.

Registered letters must be prepaid as regards both postage and registration fee.

The registration of a packet makes its transmission much more secure; and the loss of a registered packet is a very rare occurrence. Nevertheless, by Act of Parliament, the Post Office is not responsible for the safe delivery of registered packets. Sent in *unregistered* letters, valuable articles are exposed to risk; and the Department cannot in any way undertake the safe conveyance of such packets.

Every letter to be registered should be presented at the window, and a receipt obtained for it; it should on no account be dropped into the letter-box, otherwise it will be charged a double registration fee of eightpence.

No letter-carrier, rural messenger, or other servant of the Post Office is allowed to carry a letter for any person to be registered.

V.—MONEY ORDERS.

17. The commission on inland money orders is—

For sums under 10s.	1d.	For sums of £5 and under £6,	7d.
„ of 10s. and under £1,	2d.	„ „ £6 „ „ „ £7,	8d.
„ „ £1 „ „ £2,	3d.	„ „ £7 „ „ „ £8,	9d.
„ „ £2 „ „ £3,	4d.	„ „ £8 „ „ „ £9,	10d.
„ „ £3 „ „ £4,	5d.	„ „ £9 „ „ „ £10,	11d.
„ „ £4 „ „ £5,	6d.	„ „ £10 „ „ „ „	1s.

No order is allowed to contain a fractional part of a penny.

With certain exceptions, no money order can be issued unless the applicant furnish, in full, the surname and at least the initial of one Christian name, both of the remitter and the payee, together with the remitter's address.

An order once issued cannot be cancelled.

The holder of a money order is always at liberty to direct, by crossing it, that the order be paid through a bank, even though its payment was not originally so restricted; and when the order is thus presented, the question put on the presentation of an ordinary money order is dispensed with.

Money orders do not require a receipt stamp.

No application can be entertained for compensation for alleged injury from the nonpayment of a money order at the expected time.

After once paying a money order, by whomsoever presented, the Office is not liable to any further claim.

VI.—POST OFFICE SAVINGS BANKS.

18. These banks are established under the provisions of the Act 24 Vict. cap. 14, entitled '*An Act to grant additional facilities for depositing small Savings at interest, with the Security of the Government for the due Repayment thereof*,' and are open daily during the hours appointed for money order business for the receipt of deposits of one shilling, or any number of shillings, subject of course to the limitations of amount prescribed in the Acts previously in force for Savings Banks.

VII.—GOVERNMENT INSURANCES AND ANNUITIES.

19. The Postmaster-General is empowered, under the Act 27 and 28 Vict. cap. 43, to insure the lives of persons of either sex between the ages of 16 and 60 for not less than £20 or more than £100. He is also empowered, under the same Act, to grant immediate or deferred annuities of not more than £50 on the lives of persons of either sex, and of the age of 10 years and upwards. The persons whose lives are insured, or to whom annuities are granted by the Postmaster-General, have direct Government security for the payment of the money at the proper time.

VIII.—SUGGESTIONS TO THE PUBLIC, ETC.

Facility is given to the Post Office in the discharge of its daily duties, and greater security afforded to the public, by careful attention to the following recommendations :—

- 1st. To post all letters, etc. as early as practicable, especially when sent in large numbers, as is frequently the case with newspapers and circulars. The trouble of the Office is much diminished if circulars, before being posted, be tied in bundles, with the addresses all faced one way.
- 2d. To make the address legible and complete, giving the name of the post town; and if there be more than one town in the kingdom of that name, or if the post town be not well known, adding the name of the county.
- 3d. To see that every letter, newspaper, or other packet sent by post is securely folded and fastened. When postage stamps are remitted, they should be enclosed in paper sufficiently thick to prevent them being seen or felt through the cover.
- 4th. Never to send money or any other article of value through the post, except either by means of a *money order* or in a *registered letter*.

- 5th. When complaint is made of letters or newspapers lost, miscarried, or delayed, to furnish to the Surveyor-General information as precise as possible regarding all the facts of the case, and to enclose whatever documents may throw light upon it.
- 6th. To see that every letter contains the full address of the writer, in order to ensure its due return if the person to whom it is directed cannot be found.

The Post Office is not responsible for any injury which books or other articles forwarded by post may sustain; and the public therefore should not employ the Post Office for the conveyance of anything likely to suffer injury in transit. Neither is the Department responsible for any loss or inconvenience which may arise from the mis-sending, mis-delivery, loss, etc. of a letter or any other postal packet.

Any person who, on receiving a surcharged letter, has reason to think that the letter has been wrongly taxed, should take it, *before it has been opened*, to a post office to be weighed, and should have its exact weight certified in writing at the post office. The cover should thereafter be forwarded to the Surveyor-General with a statement of the matter.

THE CORPORATION OF THE
SCOTTISH PROVIDENT
 INSTITUTION,
 NO. 6 ST. ANDREW SQUARE, EDINBURGH.

THIS SOCIETY differs in its principles from any other Office. Instead of charging rates admittedly higher than are necessary, and afterwards returning the excess, or a portion of it, in the shape of Periodical Bonuses, it gives from the first as large an Assurance as the Premiums will with safety bear—reserving the Whole Surplus for those who live long enough to secure the Common Fund from loss.

A Policy for £1200 to £1250 may thus in most cases be had for the Premium usually charged for £1000 only; while, by *reserving* the surplus, large additions may be expected on the Policies of those who live to participate. In a few cases, Policies sharing at the whole four divisions have already been doubled.

ITS TERMS are thus well calculated to meet the requirements of intending Assurers. They are specially adapted to the case of Provisions in Family Settlements, where it is of importance to secure, for the smallest present outlay, a competent provision, of definite amount, in the case of early death.

The 37th Annual Meeting was held on 31st March 1875.

The NEW BUSINESS effected during the year 1874 was—

2461 Policies, assuring (inclusive of Contingent Bonuses) **£1,120,572.**

This Business has been exceeded by only one Office in the Kingdom.

Number of Policies in force 20,022, assuring (besides annuities) £9,885,753.

The **Realised Fund** was at 31st December last **£2,419,004.**

TESTS.—At last General Meeting, Professor Macpherson reviewed the various Tests of the position of an Office which have been recently suggested—such as EXPENSES, relative and actual; FUNDS, their amount, and their proportion to Premium Income, and the progressive INCREASE OF THE FUNDS;—showing, in regard to these, that ‘the more fully the Institution is tested along the whole line of its operations, the more impregnable will its position be found to be.’

On the last of these Tests, which may be viewed as the corollary or inference from the others, the Professor says—‘All I say upon that point is, that *the ratio in which for several years past our Funds have increased in proportion to our Income has largely exceeded that of any other office in the Kingdom.*’

Examples of Annual Premiums for £100 at Death (with Profits).

AGE.	25	30	35	40	45	50
Limited to 21 payments . . .	£1 18 0	£2 1 6*	£2 6 10	£3 14 9	£3 5 9	£4 1 7
Payable during life	2 12 6	2 15 4	3 0 2	3 7 5	3 17 6	4 12 1

* A Person of 30 may thus secure £1000 at Death, by a yearly payment, DURING LIFE, of £20, 15s. OR by TWENTY-ONE yearly payments of £27, 13s. 4d.—being thus free of payment after age 50.

At age 40 the Premium ‘Ceasing at age 60’ is, for £1000, £33, 14s. 2d., being about the same as most Offices require to be paid during the whole term of life.

Full STATEMENTS OF PRINCIPLES will be found in the ANNUAL REPORTS.

PROGRESS OF THE COMPANY.

The progress of the Company is displayed in the following Comparative Statement of New Life Business and Life Premiums for the last two Quinquennial periods:—

PERIOD.	No. of Policies issued.	Amount Assured.	New Premiums.
Five Years 1867-72, . . .	4220	£1,544,145	£50,489
Five Years 1863-67, . . .	3616	1,017,950	30,313
Excess in favour of the present Quinquennium,)	604	£526,195	£20,176

LIFE DEPARTMENT.—FOUR-FIFTHS of the PROFITS are divisible amongst Assurers on the Participating Table.

Assurances are effected on Participating and Non-Participating Tables, on Ascending and Descending Scales, for Short Periods, and by Policies payable at the ages of 65, 60, 55, or 50, or previously in the event of death.

The New Life Business of the year 1874 was 878 Policies, assuring £310,725, yielding £10,600 of Premiums.

In the case of an Assurance for the Whole of Life, £250 and upwards, half of the Premiums for five years, or one-third of the Premiums for the Whole of Life, may remain as a debt on the Policy.

FIRE DEPARTMENT.—Policies are granted on almost every description of Property, on Liberal Terms. No expense is attendant on Transfers of Policies from other Offices. Losses are paid immediately on proof. Losses by Explosion of Gas are made good by the Company.

LOAN DEPARTMENT.—Loans from £50 to £1000, on personal security, with Life Assurance, repayable by instalments.

☞ *THE ONLY RELIABLE TEST of the FINANCIAL POSITION of a LIFE ASSURANCE COMPANY is an ACTUARIAL VALUATION; and for this plain reason, that such a test alone takes account of all the elements affecting the 'ASSURANCE FUND.'*

Two of the most important of these elements are—First, the DURATION of its several policies, that is, the number of years' premiums received on each; and—Second, the amount of its BONUS ADDITIONS to sums assured, and its PAID-UP POLICIES, both of which require a very much larger 'Assurance Fund' to cover them (in many cases, at least three times larger), than the same amount of ordinary sums assured. Life Assurance Offices, even of the same age, vary greatly on these two material points; so much so that, without specific information regarding them, it is impossible to form an opinion on the true position of any Office from the other items in its annual Returns to the Board of Trade.

Copies of the LIFE ASSOCIATION OF SCOTLAND'S Actuarial and other Statements, as deposited with the Board of Trade, will be forwarded to any part of the Kingdom on application.

The Association has two Classes of Policies, A and B, having distinctive arrangements as regards Bonuses, etc.

CLASS A.

CASH BONUSES are allocated every year to Policy-holders of five years' standing who have paid six years' premiums, and are applied in part payment of the next premiums payable for the policies. The Outlay required, after the sixth payment, is thus much below the usual amount.

REGULATIONS giving the utmost protection to the Policy-holders have always been conspicuous in the System of the ASSOCIATION.

The CONDITIONS of the Policies are unusually favourable as regards Indisputability—Non-Forfeiture—Residence, etc. In Class B the assured may reside or travel in ANY PART OF THE WORLD.

The UTMOST PROTECTION is afforded under accidental omission, or inability to pay premiums; and the Policy-holder's convenience is met, in as far as possible, by arrangements for postponing payments; by loans to the extent of the Value of the Policy, Reduction of Assurance to a smaller amount, etc.

IN SURRENDERING the whole or a portion of his Assurance, the Policy-holder, after three years' premium payments, is allowed an ample value in cash. Further,

IN DISCONTINUING his payments, he is completely protected against loss by the NON-FORFEITABLE PREMIUM SYSTEM.

CLASS B.

The BONUSES are declared every Five Years, and are in the form of Contingent Additions to the Sums Assured, and reserved for those who do not die before the average period. These Bonuses are accordingly three or four times larger than the ordinary Bonuses of other Offices.

This Company transacts Life Assurance and Annuity Business only.

THE most PERFECT SECURITY is afforded by the Company for the fulfilment of all its contracts. The Funds are ample, and are invested on the best Securities, while the periodical Investigations are conducted on the most approved principles.

The RATES OF PREMIUM are strictly moderate.

The BONUS SYSTEM is one which, while operating equitably towards younger Assurers, confers important benefits on those more advanced in life. Many Policies effected with this Company have been doubled in amount.

The NON-FORFEITURE SYSTEM of this Company, which obviates the risk of loss by discontinuance of Premiums, embraces all the ordinary classes of Assurance, *whether paid for by a limited number of premiums or not.*

The CONDITIONS OF ASSURANCE are such as to exclude all unnecessary restrictions with regard to Foreign Travel or Residence, the revival of Lapsed Policies, etc.

Copies of last BALANCE SHEET, and all requisite information, will be furnished on application at the Head Office, or at any of the Branch Offices or Agencies of the Company.

LIFE INSURANCE.

The following are a few of the advantages attaching to the Life Policies of this Company:—

Moderate Rates of Premium for all descriptions of Insurance.

Fixed Bonuses guaranteed by the numerous proprietary of an unlimited Company.

Whole world leave granted on reasonable terms.

Policies held as securities are not considered void by this Office, although the Assured should leave the prescribed limits, provided the holder informs the Office as soon as it comes to his knowledge, and pays the adequate extra premium.

Claims are payable Thirty Days after admission.

The ANNUITY Rates are extremely liberal, and every facility given to purchasers as to place and time of payment.

CLAIMS UNDER POLICIES have at all times been properly adjusted and paid, and in the course of Thirty-seven Years have exceeded Twelve and a half Millions Sterling. This test, and the present revenue, are conclusive evidence of the satisfactory way in which the business of the Company is conducted.

Prospectuses, and every information, will be obtained on application at any of the Offices of the Company.

FIRE DEPARTMENT.

THE COMPANY insures nearly every description of property at Home and abroad, at the lowest rates of Premium corresponding to the risk.

No Charge for Policies or for Transfers from other Offices.
 The Nett Fire Premiums for the year 1874 were £762,640 11 9
 The Fire Reserve Funds, irrespective of the Paid-up Capital, amounted at 31st December 1874 to 862,238 6 11

LOSSES PROMPTLY AND LIBERALLY SETTLED.

LIFE DEPARTMENT.

The Funds Accumulated in the Life Department—irrespective of the Paid-up Capital of £250,000—amounted at 31st December 1874 to 2,682,513 7 6
 The Annual Revenue from Premiums and Interest on these Funds amounted to 409,990 10 6
 Nine-Tenths of the Whole Profits of the Life Assurance business are allocated to the Assurers on the Participating Scale.

The Next Division will be made as at 31st December 1875.

At last Investigation in 1870, in ascertaining the Surplus to be divided, the Nett Premiums alone were taken into calculation, the whole of the Loading for profits and expenses having been deducted.

The Fund Divided at that time amounted to £182,274 5 2

The Rates of Premium are moderate, and, in addition to the Ordinary Tables, several Special Schemes have been introduced, well adapted to meet various contingencies connected with life.

Annuities of all descriptions granted on most favourable terms.

Tables of Rates, and every information, may be had at any of the Chief Offices or Agencies of the Company.

AT the THIRTY-FOURTH ANNUAL MEETING, held on 24TH FEBRUARY 1875, the REVENUE ACCOUNT and BALANCE SHEETS, prepared in accordance with the 'Life Assurance Companies Act, 1870,' and the Reports by the Directors and Auditors, were read and unanimously approved:—

The NEW POLICIES issued during the past year had been	657
SUMS ASSURED thereby	£491,784
NEW PREMIUMS received	14,894
SUMS amounting to £60,150 had been re-assured with OTHER OFFICES, at Annual Premiums amounting to	1,567
The NET INCOME from Premiums and Interest, after deducting Re-Assurance Premiums and Sums received for the purchase of Annuities, had amounted to	158,902
CLAIMS by DEATH had arisen under 142 LIFE POLICIES effected on 105 LIVES, the SUMS ASSURED by which, including BONUS ADDITIONS, amounted to	97,277
The LIFE ASSURANCE FUND, exclusive of PROPRIETORS' CAPITAL, amounted to 66 per cent. of the whole PREMIUMS received upon the SUBSISTING POLICIES; and the SURPLUS on the Year's Transactions, amounting to £38,821, had been added to the ACCUMULATED FUNDS, which, after providing for all Outstanding Claims and other Sums due, amounted to	863,211
The POLICIES IN FORCE at Christmas 1874 were 6159; and the SUMS ASSURED thereby, including VESTED BONUS ADDITIONS, amounted to	3,837,266

BONUS YEAR 1875.

IMMEDIATE PARTICIPATION IN PROFITS.

POLICIES effected during the PRESENT YEAR on the Participation Scale under full Annual Premiums will be entitled to

ONE FULL YEAR'S BONUS ADDITION

at the Sixth Investigation and Division of Profits at CHRISTMAS 1875.

The PROFITS are ascertained and divided every FIVE YEARS; NINE-TENTHS (90 PER CENT.) being appropriated to the ASSURED. At the FIFTH INVESTIGATION (Christmas 1870), REVERSIONARY BONUS ADDITIONS, at the rate of £1, 10s. per cent. per annum, were made to all SUMS ASSURED by POLICIES effected on the PARTICIPATION SCALE for the WHOLE TERM OF LIFE—EQUIVALENT ADDITIONS being also made to the ENDOWMENT ASSURANCES. The BASIS OF VALUATION was the CARLISLE TABLE OF MORTALITY, combined with THREE PER CENT. INTEREST,—only the 'PURE' or 'NET' PREMIUMS being taken into account,—and the whole 'LOADING' reserved as a provision for future Expenses and Profits. The value of the 'LOADING' thus reserved was £247,378, a Sum nearly equal to ONE-HALF of the NET LIABILITY of the Office under its ASSURANCE CONTRACTS.

THE SCOTTISH EQUITABLE LIFE ASSURANCE SOCIETY has been established for Forty-four years. The principle of MUTUAL ASSURANCE on which it is founded, the careful management of its affairs, and the equity and liberality of its Regulations, have secured for it public confidence, and entitled it to take rank as a First-class Office.

There being no Proprietors to share in the Funds contributed by the Members, THE WHOLE PROFITS BELONG TO THE POLICYHOLDERS EXCLUSIVELY, who are however by the DEED OF CONSTITUTION, expressly exempted from all personal responsibility for any claims against the Society.

The Profits are divided every *five years*, and are allocated not only on the sums originally assured, but also on the previously vested Bonus Additions. Bonuses are also paid for the period between the date of the last Division and the date of death.

The total Additions made to Policies amount to £2,012,982.

On 1st March 1875 the available Assets of the Society, all Invested in the United Kingdom, and on unexceptionable Securities, amounted to £2,177,183. The Net Annual Premiums were £194,994, and the net Sums assured £7,358,265. The Funds in hand herefore amounted to more than eleven times the Premium income, and to 29.6 per cent. of the sums payable under the Policies.

View of the Progress of the Society.

FIRE.—Insurances accepted on favourable terms, and Policies may be transferred from other Offices without additional expenses.

LIFE.—The Directors of the Scottish Imperial Insurance Company, considering it their first duty to provide for the *utmost safety* of the Policy-holders, have, by means of the combination of Fire and Life business under one management, been enabled to reduce the total expenses (including Commission) in the Life Department to a charge of Ten per Cent. upon the Premium Revenue. This *unusually low ratio of expense*, which is more than a third below the average, affords the best guarantee to Assurers of *Permanent Security*, while to those who hold 'With-Profit' Policies it likewise affords the prospect of future Bonus additions on a very liberal scale.

THE Corporation grant Drafts, and negotiate or collect Bills, payable at the above places, on terms which may be ascertained at their Office; they also issue Circular Notes and Letters of Credit for the use of Travellers by the Overland Route.

They undertake the Agency of Persons connected with India and the Colonies, make investments in the Public Funds, and other British and Foreign Securities, and receive Pay, Pension, Dividends, and Interest for Constituents.

They also receive Deposits of £10 and upwards for fixed periods, repayable in one sum, on terms which can be ascertained at their Office.

Application for the sanction of the Directors to Credits established by Firms here in favour of parties abroad must be sent in not less than three days before despatch of the Mail, otherwise they will be deferred until the Mail following. Bills for Collection in India and the Colonies, and other transactions involving correspondence by the Overland Mails, also applications for Drafts, are required to be sent in one clear day before the day of despatch.

The Corporation undertake the custody of Indian and Colonial Government Paper, Bank Shares, and other Stocks, and draw Interest and Dividends on the same as they fall due.

They also make the necessary Registry of Indian Government Loan Notes, so as to obtain payment of the Interest in England.

DEPOSITS AND DEBENTURES.

THE ASSOCIATION receives Money on DEPOSIT or DEBENTURE BOND, at Rates varying from 3 to 4½ per cent., according to the market value of money at the time. If preferred, a uniform Rate of Interest will be given on Deposits for fixed periods of from one to five years, on terms to be arranged. The Debenture Bonds will be granted for five or seven years.

SAFETY OF DEPOSITS AND DEBENTURES.

The ASSOCIATION lends its Funds on HERITABLE PROPERTY *only*, and at rates corresponding to the market value of money. All the Loans are repayable by instalments, which adds greatly to their safety, any depreciation which might take place in the value of the security being more than met by the gradual diminution of the Loan. The risk arising from the Investments of the Company is thus small, and they are enabled to give comparatively high rates for Deposits. In addition to the fact that the Loans are all secured on Heritable Property *only*, Depositors have the *further guarantee of the Company's large Subscribed Capital and Reserve Fund*.

At 31st December 1874

The Subscribed Capital (of which £50,000 has been paid up) amounted to £250,000

The Reserve Fund to 21,000

And at same date

The Deposits amounted to £606,419

The Loans on Heritable Security to 602,655

LOANS.

Loans are granted on Security of Land, Houses, and every description of Heritable Property.

The Loans are repayable in periods of from four to sixteen years. If desired, *part only* may be made repayable by instalments—the remainder bearing interest, payable half-yearly.

Borrowers, by arrangement with the Directors, can pay off their Loans at any time, either in whole or in part; or the period of repayment can be altered to one more suitable.

LOANS.

This Company advances money on the security of Heritable Property. Advances are repayable by different modes to suit the convenience of borrowers, and within such number of years as may be arranged.

INVESTMENTS.

Debenture Bonds are issued for sums of £100 and upwards, bearing interest at $4\frac{1}{2}$ per cent.; and Deposit Receipts are also issued, bearing interest at from 3 to $4\frac{1}{2}$ per cent., according to the period for which the money is deposited.

SECURITY.

The Debenture Bonds and Deposit Receipts are a first charge on the Funds and Securities of the Company. The whole Funds, including the monies received on Debenture and Deposit, are lent out on Heritable Securities under the advice of the Company's Surveyor. The sum lent is in all cases considerably under the market value of the property, and as it becomes immediately repayable by instalments, the margin is always increasing.

The Debenture Bonds and Deposit Receipts are also a first charge on the Capital of the Company. The authorized Capital is £200,000. The first issue of £100,000 has been fully subscribed, but, in order to give Debenture holders and Depositors a virtually unlimited security, only £10,000 has been called up.

In addition, therefore, to having security at least equal to an approved Heritable Bond, investors with the Company are protected against the possibility of loss by an uncalled capital of £90,000.

Further information on any of the above subjects may be obtained at the Office of the Company.

THE SCOTTISH PROPERTY INVESTMENT COMPANY was established in 1849. Conducted on liberal, yet safe and economical principles, it rapidly acquired, and has ever since retained, the confidence of the public. Since its commencement, it has made advances for the purchase of property to an extent exceeding ONE MILLION Sterling. The Directors are always prepared and disposed to treat liberally with intending Borrowers, and in large transactions they may allow part of an advance to lie at interest, while the remaining part is being redeemed according to the following Table:—

TABLE showing the ANNUAL and MONTHLY REPAYMENTS, including Interest, for a Loan of £100:—

THIS Company transacts the following business :—

1. Money is received upon Debenture for such periods as may be arranged. These are a first charge upon the whole property of the Company, as well as upon the unpaid calls of a wealthy and influential proprietary, resident, with few exceptions, in Scotland, amounting to nearly £800,000.

The borrowing power of the Company is limited to the amount of Capital uncalled for the time being. The rate of interest allowed upon Debentures at present is $4\frac{1}{2}$ per cent. for three years, and 5 per cent. for five years.

2. Coupons due in America are cashed or collected on commission.

3. United States 5/20 called bonds collected, and these or other United States Government bonds exchanged at current prices for first-class Railroad Mortgages.

4. The Company undertakes the purchase or sale in America of all kinds of Stocks or Securities, and has always on hand for sale the Mortgages of the older and dividend-paying Railroads.

5. The Company acts as Agents for the Equitable Trust Company of New London, Connecticut. The Mortgages over real estate in America, negotiated and guaranteed by the Equitable Trust Co., may be had on application at par in currency and accrued interest. Coupons for 7 per cent. interest are attached to the Bonds, and they are for five years.

Particulars of Railroad Mortgages on hand for sale or exchange, and any other information desired, may be had at the office of the Company.

Money intended for the Company may be paid to any Branch of the Royal Bank of Scotland, the British Linen Company, or the National Bank of Scotland, for the credit of the account in Edinburgh.

9. The Planting for Shelter, or for any beneficial purpose, which will increase the permanent value of the Land.
10. The Constructing or Erecting of any Engine-houses, Water-wheels, Saw and other Mills, Kilns, Shafts, Wells, Tanks, Reservoirs, Dams, Leads, Pipes, Conduits, Water-courses, Bridges, Weirs, Sluices, Floodgates, and Hatches, for Agricultural or Farming purposes.
11. The Erecting of any Engines or Machinery of a permanent nature, so as the same be erected in connection with and in the effecting of any Works of or Improvements in Drainage or Irrigation.
12. The Construction or Improvement of Jetties or Landing-places on the Sea Coast, or on the banks of Navigable Rivers or Lakes, for the transport of Cattle, Sheep, and other Agricultural Stock and Produce, and of Lime, Manure, and other articles and things for Agricultural and Farming purposes.

The large Agricultural Powers of the Company's Acts comprise all which can be required by the most improving Proprietor or Tenant; and the privilege offered to two or more Landowners, of combining in an Application for the Execution of Works mutually beneficial—such as a common outfall, etc., road or railway—is undoubtedly worthy of attention.

The Company have power to make Contracts with all Public Bodies who have Parliamentary authority to execute Works and levy Rates.

The Company being of a strictly financial character, do not interfere with the Plans and Execution of the Works, which are controlled only by the Government Enclosure Commissioners.

Under the Company's Acts, HEIRS OF ENTAIL, Liferenters, Trustees, Tutors, Curators, Bodies Corporate, and other Landowners with limited powers, as well as Fee-simple Proprietors, can charge their Estates, and *Clergymen their Glebes*, with the *whole* cost of the above Improvements.

The attention of Proprietors of ENTAILED ESTATES is specially directed to the advantages offered by the Company, as being greatly preferable to the cumbrous system under the Entail Acts, and the Works authorized are much more extensive.

This RENT-CHARGE for 25 years, to repay *capital and interest*, is £6, 14s. per cent. per annum.

For further information, and for Forms for Application, apply to GRANVILLE R. RYDER, Esq., Managing Director, No. 3 Parliament Street, London, S.W.; or to

Messrs. HOPE & MACKAY, W.S., 119 Princes Street, Edinburgh, the Company's Agents for Scotland.

NORTH BRITISH AGRICULTURIST,

PUBLISHED EVERY WEDNESDAY AFTERNOON,
AT 377 HIGH STREET, EDINBURGH.

THE NORTH BRITISH AGRICULTURIST, established in 1843 (the only Agricultural Journal printed and published in Scotland), is Published every Wednesday Afternoon, immediately after the Edinburgh Markets, in time for the Evening Mails; and the terms of Subscription are as follow:—

ONE YEAR, FREE BY POST,	£0 14 0
Do. do. WITH NEWS SUPPLEMENT,	0 18 0

AGRICULTURE.—The *Agriculturist* is devoted to the interests of Agriculture, both practical and scientific. It contains leading articles on the Cultivation of the Cereal and Root Crops, the Breeding and Fattening of Stock, the Treatment of the Domestic Animals in Health and Disease, Agricultural Statistics, and Political Questions connected with Agriculture. The Editors also answer queries relating to these subjects which Subscribers may from time to time find it desirable to have solved. The Meetings and Exhibitions of the National Agricultural Societies, Chambers of Agriculture, and Farmers' Associations are carefully reported, and the latest improvements in Implements of Husbandry and Farming operations recorded. Particular attention is devoted to the proceedings of Breeders of High Class Stock, and Dairying is being made a special department of the paper.

VETERINARY DEPARTMENT.—This department is conducted by an eminent Veterinary Surgeon, and contains, besides leading articles on Veterinary subjects, answers to Correspondents giving directions for the Treatment and Management of Animals when suffering from Disease. The thoroughly practical nature of the instructions given renders this department peculiarly valuable.

GARDENING.—The services of an excellent practical writer on Gardening have also been secured, and a column is devoted to the discussion of topics bearing on the profitable management of Farm and Cottage Gardens, with a Weekly Calendar of Operations, and directions as to the selection of Vegetable and Flower Seeds, Fruit Trees, and Bushes.

MARKETS, ETC.—The Market Report is the most complete of any paper published in Scotland, and contains, besides the Edinburgh Markets held on the day of publication, the London and Glasgow Markets, *specially telegraphed*, and the principal Markets held during the week throughout the United Kingdom; also a Weekly Review of the Corn Trade, specially written for the *Agriculturist*.

4 ST. ANDREW SQUARE, EDINBURGH,

AND 18 PATERNOSTER ROW, LONDON,

HAVING been appointed by the Secretary of State for War AGENTS for the sale of the above Publications, are now enabled to supply these important works to the Public. They furnish to order all the new Sheets as published, *reduce or enlarge portions of the Survey*, and reproduce them by Lithography, to any Scale, as Plans of Estates or Law Plans.

Sheets of the Survey can be joined together so as to make a complete Estate Plan or Plan of a Farm, which can be coloured and mounted on cloth to order.

Areas of Estates or Farms computed; Tables of Contents constructed; and Scotch or other Measures converted into Imperial Acres.

Tracings, when required for public purposes, procured of those portions of the country which are surveyed but not yet published, and every information given as to the state of the Survey. Catalogue, with Index Maps showing the present state of the Survey on the various Scales, free by Post.

DRAWINGS OF PLANS OF ESTATES, ETC.,

Carefully Executed to Order.

Maps, Plans, or Drawings mounted on Cloth, Roller, or in Case.

PHOTOLITHOGRAPHY.

GREAT attention has been paid to this most important branch of the Trade; and as every department of the art is carried on *in the premises*, the greatest security, and where necessary, secrecy may be relied on in producing facsimiles of Deeds, Charters, Letters, etc.

Plans of Estates, or parts of the Ordnance Survey, can be reproduced, either on larger or smaller scales, and printed in any required number from Stone.

SHANKS'S NEW PATENT LAWN MOWERS.

Under the Patronage of Her Most Gracious Majesty the Queen and most of the Nobility of Great Britain.

ALLEXANDER SHANKS & SON desire to draw attention to the various points of merit which their New Machine possesses over all others. These advantages have only to be known to ensure the success and to establish more firmly than ever the position of

Shanks's Machine as unquestionably the Best and Cheapest Lawn Mower in Use.

1. SHANKS'S PATENT LAWN MOWERS have been entirely remodelled for the Season of 1871. Every conceivable alteration has been made tending to improvement, and in reducing friction to a minimum.
2. SHANKS'S PATENT LAWN MOWER is fitted with a double-edged Sole-Plate. This Sole-Plate enables the cutting parts to last twice as long as those in other Lawn Mowers.
3. SHANKS'S PATENT LAWN MOWER is fitted with a Self-Sharpening Revolving Cutter.
4. SHANKS'S PATENT LAWN MOWER is fitted with a Wind-Guard, which prevents the Grass escaping the Box when the Machine is in use during the prevalence of Wind.
5. SHANKS'S PATENT LAWN MOWER has no obstruction in front of the cutter,—a most important improvement just introduced.
6. SHANKS'S PATENT LAWN MOWERS are made of the very best material, carefully apportioned so that no part has more weight than is absolutely necessary, and securing at the same time the greatest rigidity as a whole.
7. SHANKS'S PATENT LAWN MOWERS are more easily worked and more durable than any other Lawn Mower, and are not at all liable to get out of order.
8. SHANKS'S PATENT LAWN MOWERS are silent in working.
9. SHANKS'S PATENT LAWN MOWERS perform their work in a manner vastly superior to the Scythe. The Lawn is not 'ribbed' when cut, but has a most beautiful appearance, being as smooth as Velvet.
10. SHANKS'S PATENT LAWN MOWER has not only obtained more Prizes and Medals than any other, but the Highest Prize that has ever been given for a Lawn Mower at an International Exhibition was awarded to A. S. & Son, who received a First Prize Silver Medal for their Machine at the Paris Exhibition of 1867. It is significant that no other exhibitor received a Prize, not even an 'Honourable Mention' or a 'Bronze Medal.'
11. SHANKS'S PATENT LAWN MOWERS are warranted to give ample satisfaction, and if not approved of can be at once returned.
12. SHANKS'S PATENT LAWN MOWERS are Delivered Free to any Railway Station or Shipping Port in Great Britain. Orders are executed on the day they are received.

PRICES FROM 50s. UPWARDS.

SHANKS'S IMPROVED WROUGHT-IRON BOILER.

This BOILER, for heating by Hot Water, is made entirely of Wrought Iron, thus effectually preventing breakage from expansion and contraction of the metal. It is fitted with Tubes placed in the Fire-box, by which arrangement a very large effective surface is obtained.

Illustrated Circulars, with Prices, may be had on application. Plans and Estimates for heating, by Hot Water, Vineries, Greenhouses, Entrance Halls, Churches, etc., will be forwarded on application. A. S. & Son have special facilities for undertaking this class of work, and in all cases guarantee a satisfactory working Apparatus at a Moderate Cost. Plans and Estimates for Horticultural Buildings, in either Iron or Wood, forwarded on application.

THE SCOTTISH GUARDIAN:

A Journal of Ecclesiastical Intelligence and Religious Literature.

THE SCOTTISH GUARDIAN is the organ of the Episcopal Church of Scotland. It includes among its contributors many English and Scottish literateurs of eminence. It not only furnishes a weekly record of Church News in Scotland and England, and reflects Church opinion on the most important subjects of the day, but provides a *mélange* of wholesome and attractive reading.

It circulates extensively among the Gentry and Professional Classes of Scotland, and is rapidly gaining support in England.

AGRICULTURAL SEEDS.

OUR DESCRIPTIVE PRICED CATALOGUE OF AGRICULTURAL SEEDS is published early in February, and will be posted to any address on application.

During upwards of Sixty Years' active engagement in the general Seed Trade, it has been our aim to furnish all Seeds requisite for the Farm or Garden, as perfect for *freshness, purity, and correctness to name* as can be produced. In regard to the last-mentioned point, we scrupulously avoid the practice, now too common,—and which we consider unfair and misleading,—of *affixing our own name* to varieties that have not, in the strictest sense, originated with ourselves.

In the raising of **TURNIP SEEDS**, we continue year by year to make new selections to start with, which, with other means acquired by experience, cannot fail to ensure the three great requisites of *size, shape, and firmness of texture*. The study of the **NATURAL GRASSES** has long engaged our attention, and we were among the first to recommend their use in the formation of **PERMANENT PASTURE**.

By a faithful adherence to the line thus indicated, along with constant personal oversight and promptness in the execution of orders, we have been rewarded by a most encouraging increase of business, to meet which we have greatly extended our arrangements for raising, and otherwise securing more ample supplies, and are thus enabled to give purchasers, however large, every advantage.

In referring to *prices*, nothing requires to be explained to the Noblemen and Gentlemen who have done business with us over a long series of years, and who make *quality* alone the standard of value; however, it is perhaps necessary to submit a remark on this head to those who look to *price only* as their guide in purchasing. Wherever the matter be duly weighed, it must be conceded that no small share of the farmer's success is dependent on *what he sows*. This, however, either with or without his knowledge, seems to be discarded, if we may judge from the very large proportion of *old, weedy, spurious, and adulterated* seed which is constantly in the market, all of which, somehow or other, finds purchasers, and into the land it must go; the result being a meagre crop of the article wanted, with a superabundant growth of 'noxious weeds,' that are not wanted. Let the same amount of money that is given *per acre* for the 'cheap' seeds be expended on the *best qualities*, as supplied by the experienced and responsible seedsman, and although the *quantity* of seed may be less than in the former case, it will at once be seen which gives the better result.

R. B. MOORE, Proprietor.

THE LONDON HOTEL,

ST. ANDREW SQUARE, EDINBURGH.

(Established upwards of Fifty Years.)

THIS COMMODIOUS and COMFORTABLE HOTEL, entirely RE-MODELLED and RE-FURNISHED throughout, has been OPENED by

HENRY WHITE,

LATE CLUBMASTER TO THE UNIVERSITY CLUB,
PRINCES STREET, EDINBURGH.

From its central situation and the spacious character of its accommodation, the LONDON will be found as hitherto an EXTREMELY CONVENIENT HOTEL; while, from Mr. WHITE's experience as Clubmaster and otherwise, he can confidently ensure to the Public an EXCEPTIONALLY SUPERIOR CUISINE.

The BILLIARD and SMOKING ROOMS have been fitted up in the most comfortable manner.

THE IMPERIAL HOTEL,

GREAT MALVERN.

THIS Hotel contains upwards of one hundred Bed Rooms, Drawing Rooms, Bed and Dressing Rooms, and Closets, *en suite*, a Ladies' Coffee Room, a Gentlemen's Coffee Room, Table d'Hote, Reading and Billiard Rooms, etc. etc.

The building is surrounded by its own ornamental grounds, flower-gardens, lawns, and terraces, and commands unequalled views of the whole range of the Malvern Hills on one side, with expansive and charming valley scenery of Worcestershire, bounded by the Bredon and Cotswold Hills, on the other.

Of Great Malvern—the salubrity of the air and the purity of the water, its invigorating effects in summer and winter, and the beauties of the place—it is superfluous to speak. As a Winter Residence, also, the dryness and high temperature of Malvern is shown by conclusive and trustworthy testimony, and is confirmed by comparative tables of winters in other localities.

To meet the wishes of numerous Visitors to the Hotel, the Proprietors have decided to take Ladies and Gentlemen as Boarders during the season, on the terms stated in the tariff.

The new Stables belonging to the Company are now open, and comprise First-class Accommodation for Horses and Carriages. Carriages, Saddle-horses, and Flys may be had at the Hotel.

A covered way conducts the Visitor from the railway station to the Hotel.

Porters attend every train to convey Passengers' luggage to the Hotel.

**PATENT IRON-FRAMED BOX MANGLES.**

WILLIAM McFARLANE'S Patented Box Mangles claim superiority over all others. The Frame is wholly composed of Iron, therefore does not twist or warp, a fault common to wood, and gives the Machine a neat appearance, with greater strength and durability; also allowing a larger Mangle to occupy the usual or minimum space.

SIR,  
 I have much pleasure in stating that the Patent Box Mangle, received from you two years ago, has given entire satisfaction. The Laundry-maids are highly pleased, and consider it a most excellent Mangle, and, notwithstanding the great heat of our Laundry, it has not twisted nor a single joint opened.  
 I am, SIR, yours respectfully,

“STAR” CLOTHES WRINGING MACHINES,

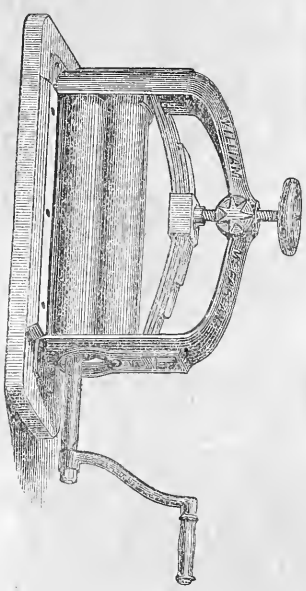

WITH INDIA-RUBBER ROLLERS.

These Machines are constructed upon scientific principles. The form is the very strongest and, notwithstanding its massive appearance, it is compared with others of same size, the lightest and cheapest Metal Wringer made—a desideratum long desired in every Household, Laundry, or Institute, viz., strength, with durability, combined with lowness of price. It is superior in every respect to any other Machine offered to the public.

RUST OR IRON-MOULD PREVENTED.

All the “Star” Wringers are thoroughly Galvanized, with handle shaft cased in BRASS, to prevent rust or Iron-mould on clothes, thereby overcoming an objection fairly urged against the Popular use of Iron Wringers.

WILLIAM M'FARLANE'S

NEWLY-INVENTED

DIRECT-ACTING CYLINDER MANGLE,

Suitable for Large Establishments and Public Institutions.

Worked by Steam or Hand-Power.

Mr. W. M. M'FARLANE,

GLASGOW ROYAL LUNATIC ASYLUM,  
GARTNAVEL, January, 1873.

SIR,—I have much pleasure in giving my opinion of your NEWLY-INVENTED DIRECT-ACTING CYLINDER MANGLE, with four pairs of rollers feeding themselves without a leading cloth, and sending the clothes out finished without reversing any part of the Machinery.

After five years' trial, I have much pleasure in stating that our Laundry never was in such a perfect state as regards Mangling. The working is simple. I may state that I have seen a great many Mangles working in Establishments in England, Ireland, and Scotland, but I have never seen one to be compared with that supplied by you to this Institution. We can do our work in at least half the time formerly required. It is not liable to get out of order.

You should make this known to all PUBLIC INSTITUTIONS, as I consider it of importance to them.

# "THE NAPIER COFFEE POT,"

*For Preparing Coffee on the Breakfast Table.*

**GREATLY REDUCED IN PRICE.**

GEO. BALLANTINE & SON have constructed a number of these unrivalled Coffee Pots, in various patterns, at prices designed to bring them into more general use. No machine yet invented prepares Coffee in such perfection; and the beverage thus prepared being always uniformly the same, is an additional recommendation of these useful, elegant, and scientific machines.

## DIRECTIONS.

PUT as much *boiling* water into the Globe as will fully cover the flame of lamp. Fix the cork tight in the mouth of the Globe. Put the Coffee into jar; fill up with boiling water as required; light the lamp and allow the water in the Globe to boil until the air is completely expelled, which is easily known by observing if the surface of the Coffee in the jar is comparatively *still*. Fix the cover on the lamp, when the coffee will shortly transfer itself to the Globe completing the operation, which is simple and very interesting. Those who are not acquainted with the real merit of these cleanly, simple, and efficient machines, should buy one, and judge for themselves.
